

# **Guidance on the new calcium for third-year students and Guidance on the course, "Experiments in Physics I"**

**Date: Thursday, April 7, 2016**

**Time: 13:20-14:50**

**Place: Lecture room H121 in the Main Building**

Guidance on the new calcium for third-year students will be given followed by guidance on the course, "Experiments in Physics I". The course is one of the required credits in Physics course. All the students who will get enrolled in the course should attend the guidance and submit an application form. The one who cannot attend it due to unavoidable circumstances is required to submit a notification of absence in advance. The form is available in the physics-department office on 1st floor in the Main Building (room R100A, phone: 03-5734-2364). Also the text book for the course will be distributed during the guidance.

**Prof.s. Yoshino and Kuze**
